Henry County was well represented last month at GAETC! Keep the excitement going and share what you learned with your colleagues!  
**#BetterTogetherHenry**

Did you know Google Slides does not just have to be for presentations? Other fun and creative ways to use Slides include brainstorming, creating flow charts, putting events in chronological order, or showing cause and effect. Click on this [link](#) to save a copy of a template that is ready for you to use! To use the template, right click on the various post it notes and/or arrows and make copies of them. Then drag out the copied shapes to the slide as needed. You could either design an activity for your students or open up the sharing options and use it for collaboration. This is a great alternative to Padlet or Canva for students under 13.

# Google Slides

December 21: Last Day of 1st Semester  
January 9: Posting window closes (school dates could be sooner)  
January 11: Report cards go home

# GOGUARDIAN

Best Practices

## SCHEDULING

Set your GG classes to start and end automatically with the scheduling feature. Advanced Scheduling options are available for block schedules. If you manually start and stop your session, be sure to stop on time. If not, your session will affect other teachers' sessions.

## SYNC WITH GOOGLE

Be sure to sync any time you have roster changes in Google Classroom. If a student is added or removed from Google Classroom, you must use the Sync with Google feature in GoGuardian. This feature is found in the Students tab in GoGuardian.

## EXCLUDE STUDENTS

Always exclude students if they are absent or in ISS. You can also exclude a student if he/she leaves to work in another teacher's room. This way, the student isn't locked into the scene you have assigned to the session.

## SCENES

When making your Exception lists, be sure to use the Base URL ~  
Example: Odysseyware ~ Instead of using <https://henry.owschools.com/ows00/login/ath> use [henry.owschools.com/](https://henry.owschools.com/)

## HOURS & REPORTS

GoGuardian does not monitor/collect data after 5pm.  
Student Reports allow teachers to view a single student's browsing behavior to view what websites their students have visited.
