

# CONTINUOUS SCHOOL IMPROVEMENT PLAN

## Mt. Carmel Elementary

### Mission and Motto

MOTIVATE. CHALLENGE. EMPOWER.

### Vision & Values

#### Vision:

Mt. Carmel Elementary School's vision is to personalize student learning through authentic, collaborative, and empowering student experiences in order to cultivate 21<sup>st</sup> Century learners who are college, career, and life ready.

#### Core Values:

#### **Mustang P.R.I.D.E**

*Positive relationships are a priority.*

If we invest in one another in a positive way, we will likewise take care of the world.

*Respect promotes openness and balance.*

We are inclusive and collaborative. Stakeholders with diverse backgrounds and abilities are welcome to participate in, contribute to, and grow our school culture.

*Intentionality is key.*

From planning and learning to playing and celebrating, all things have great purpose in our school.

*Dedicated to the future.*

Our future is in our classrooms today. All stakeholders in our school culture are dedicated to a bright and healthy future through the positive and deliberate investments we make today.

*Every moment is important.*

A few minutes late to school or a day away from school are moments lost on the pathway to college and career success. Lost time is a lost opportunity for that spark that might ignite a child on a trajectory towards excellence.

### School Improvement Goals

#### **Student Performance Goal #1:**

By the conclusion of the 2020-21 school year, the number of students reading at or above grade level targets (F & P, K: Level D or above; 1<sup>st</sup> grade: Level J or above; 2<sup>nd</sup> grade: Level M or above; and 3-5 Lexile from MAP) will increase by 10%.

#### **Student Performance Goal #2:**

By the conclusion of the 2020-21 school year, 75% of students in K-5 will increase mathematics performance as measured by MAP (1-5). MAP will be measured by the quadrant report for both projected growth and projected class RIT with 75% of students meeting projected growth and projected class RIT. KK will measure mathematical performance increase using number identification and matching sets.

#### **Student Performance Goal #3:**

During the 2020-21 school year, MCE will continue growing a school culture and climate that fosters positive student relationships and family and community connectivity as evidenced by school and state survey data.
