

Ola High School Foundations of Algebra- Math 180

Instructor: Kelli Mayo

Email – Kelli.Mayo@henry.k12.ga.us

Remind: 81010 @MathFOA21

Course Description:

The purpose of this course is to work intentionally on your math skills so that you can be better prepared for your other high school courses. Math consists of the following components: rates, ratios, percent, proportions, linear relationships, functions, and systems of equations. In this course, we will evaluate which of these areas is your strength and work on those that are your weaknesses.

Class Expectations:

1. Complete ALL assignments
2. Remember Academic Integrity
3. Always be an active learner
4. Be PREPARED
5. We are here for you: Use your VOICE
6. Have a charged Chromebook and be logged in before class
7. Follow classroom norms

Class Format:

Math 180: The Math 180 program will be used for part of this course. The program consists of a workbook as well as an online student application.

Google Classroom: Google Classroom will be used as a communication tool. Very few assignments will be posted in Classroom.

Google Meet: In the event that we return to remote learning, Google Meet will be used for teacher instruction and small groups/guided practice.

Class Materials:

Students will need the following materials for class DAILY:

Chromebook: Student Chromebooks will be used daily to access Math 180 and assignments. Students should have these charged and ready to go daily.

Ear Buds: Students will need earbuds to listen to individualized instruction.

Pencils: Students will need to answer questions in their Math 180 Workbook.

Math 180 Workbook – The Math 180 workbook will be used during whole group instruction. These will be provided in class and remain in the classroom.

Grade Reports:

This course has been divided into three categories. Please review the scale below. Infinite Campus will be updated regularly. All students are expected to have access and check it regularly. Assignments may be weighted differently within categories.

Assessments 40% (Nine Week Average of App Zones, Math Quizzes, Mid Term Exam)

Practice Work 40% (Whole Group Math, Warm-Ups, Time on App)

Exam 20% (End of Semester Final Exam)

Missing work:

If a student is in class, he/she should have no reason to complete any work outside of class. If the need arises, the following late work policy will be used.

Any missing assignments from the week are due by Monday's class period. This allows students to utilize Fridays and the weekend if needed to complete any work.

Practice work assignments will only be accepted up to one week late.

Major assignments will only be accepted up until week 7 of the grading period or up to two weeks late.

Attendance / Make-up work:

Attendance is expected. It is very important that students participate in class regularly. If a student misses a class, it is his/her responsibility to complete any missing work. Missing Math 180 workbook assignments or warm-ups can be completed during small group time. Missing student app time will need to be completed on the student's own time.

Tardies (For face-to-face learning):

At the end of the LAST BELL you must be in the classroom. If you are not in the class when the bell stops ringing, you are tardy. If you are tardy you will be required to get a pass from the Tardy Kiosk in order to come in. Please review the handbook for the tardy policy. Make it a point to be on time.

Assignments/Practice:

Practice work cannot be resubmitted.

Major assignments may be resubmitted within two weeks of the assignment being returned. Students may be given an alternate assignment at teacher discretion.

Discipline Procedures: **below is an example of options for teacher to follow**

1st offense – Move to another teacher (sign 4-step paper)

2nd offense – Move back to original teacher (sign 4-step paper)

3rd offense – Parent contact (sign 4-step paper)

4th offense – Detention (after or before school/sign 4-step paper)

5th offense – Office referral

** Certain offenses may warrant skipping the 1st three steps. **

Your success in this class depends on the amount of time and effort you are willing to put forth.

Working together, we can have a great year!
