- ✓ Cell phones should be kept in lockers during the school day

Science Fair

Stockbridge Middle School's students will all be involved in the Science Fair Project process this school year. By now my students should have selected a topic and be well on their way of completing their Research Plan. All information and documents can be located in the students Google Classroom under the Science Fair tab or on the School website under the Academics Tab. Once I approve their Research Plan, they can begin the next step, implementing their planned experiment. If you have any questions or concerns, please contact me at laura.clotfelter@henry.k12.ga.us

Ms. Clotfelter

Tutoring Schedule

(Please make prior arrangements with teacher)

Ball/ELA

Tuesday 8:00am - 8:30am
Wednesday 4:30pm - 5:00pm

Clotfelter/Physical Science

Wednesday 8:00am - 8:30am
Thursday 4:15pm - 5:15pm

Robinson/Math

Thursday/8:00am-8:30am & 4:15pm-4:45pm

Content Information

Math

Language Arts

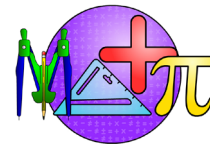

Students will focus on unit 2 during the month of October. In this unit, students will read both literary and informational texts. Students will read short and extended literary texts and annotate story elements, including plot, characters, setting, point of view, conflict, and theme. Students will analyze how dialogue reveals aspects of a character and examine conventions for using and punctuating dialogue. Students will also work on analyzing narrative writing prompts and writing narratives.

 ~Mr. Wilson Kelvin.Wilson@henry.k12.ga.us

Science

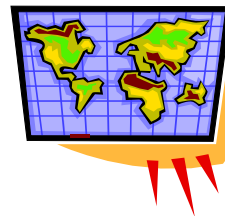

8th Grade Physical Science

We are now moving into Unit 2/Energy. We will learn about the different kinds of energy and how they are transformed within a system. The students will be involved in hands on activities to experience these energy in the real world. The students will also continue to work on their Science Fair Project that will be due the 1st of November.

Honors Physical Science

We are continuing to learn about Motion, Force and Simple Machines. The students will be involved in an Acquired Driven Instruction lab to help them to see the real world application of the Laws of Motion and Machines. The students will also be continuing their work on the Science Fair Project which is due the 1st of November.

~Ms. Clotfelter
