

We are **ONE!**

Ola High School Computer Code of Ethics

Because I understand the importance of ethical behavior, and because I know that my actions can impact the learning of others, I will not...

1. Copy programs from the computer hard drive.
2. Install or create unauthorized files/programs.
3. Create file names that may be offensive to other users.
4. Deface the computer hardware (i.e. switching keys on the keyboard).
5. Remove hardware components (keyboards, mice, etc.).
6. Change software components making it impossible to operate the software (screen colors, icon deletion, password additions, etc.).
7. Use the Internet to check email, watch videos, utilize messaging services, access social media sites or visit any other inappropriate sites (as deemed by the instructor).
8. Download any files or games to your Network or Personal Drive from outside storage devices (i.e. Flash Drives).
9. Attempt to play games stored on a flash drive.
10. Change or delete files from other users.
11. Disconnect your machine from LanSchool.
12. Attempt to use a proxy to bypass the filter.
