

Looking Deeper

Choose one activity to complete.

Critique a Work of Art

Find out more about a particular work of art. Then critique it, including your interpretation of its meaning. Also provide information about the artist and the media used.

Write an Author Review

Research an author you like. Find out more about his or her life, writing style, types of books written, and so on. Present your findings in the form of a commercial advertisement endorsing the author's books. Your commercial can be presented live or using some form of technology.

Create a Timeline

Choose a product (e.g., cars, books, movies, phones) and create a timeline showing that product's evolution. Include pictures and dates.

Inventors

Find out more about an inventor. Did the person work alone? What difficulties or setbacks did he or she face? In what ways was the inventor successful? Present your findings to the class using the technology of your choice (e.g., PowerPoint, video, photo slide show).
