

Parking Permit Information

2020-2021

Academy for Advanced Studies associates include those taking high school or dual enrollment classes. Associates who are utilizing their own transportation to the Academy will need to have a parking permit from the Academy for Advanced Studies visible on any vehicle they park here at the school location.

Associates who purchase a current year parking permit from their home high school, *will still need to obtain an Academy parking permit.*

Associates will need to provide a copy of their parking permit receipt from their home high school for the current school year along with a completed Academy parking application. Upon verification, the associate will be issued a parking permit for the Academy for Advanced Studies location.

If an associate does not have a current year parking permit from their home high school, they will need to purchase an Academy for Advanced Studies parking permit from the Academy office for \$20.00.
