

# Science Fair Project Board Display

Use large colorful lettering for your title. Make sure that it is big enough to be seen from a distance.

Use distinctive lettering to label the different sections of your display board to include your Purpose, Hypothesis, Summary of background research, Results and Conclusion.

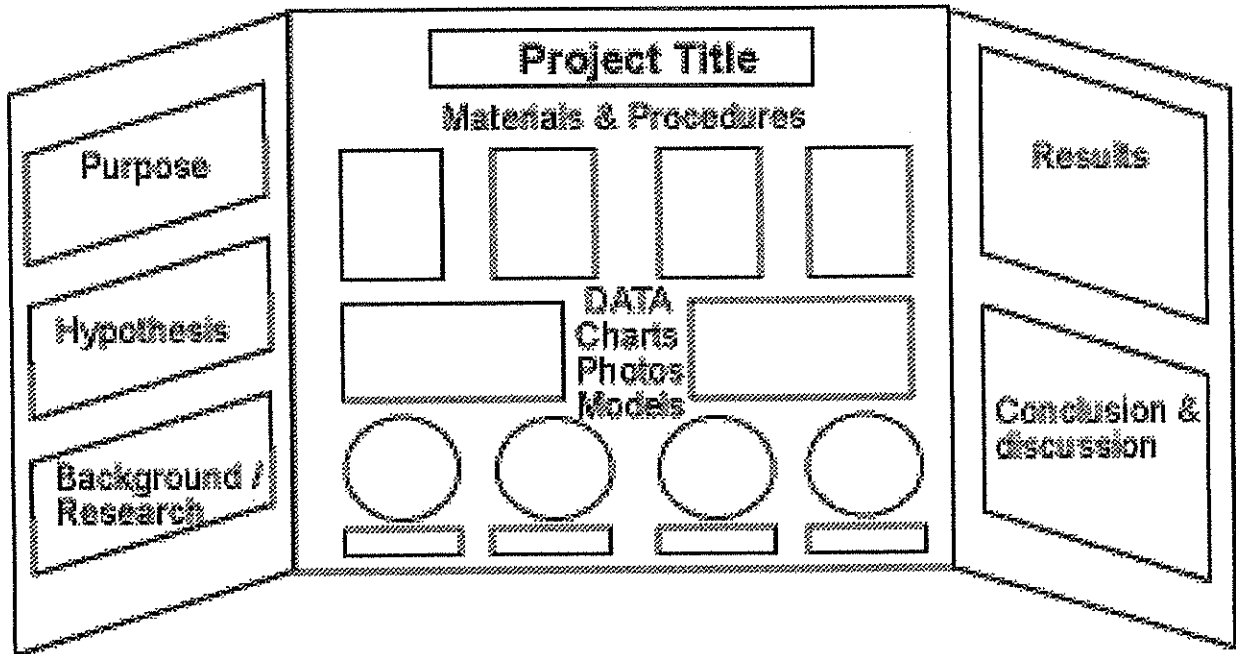

Use colored backgrounds for each section on your display board. Use decorative borders. Illustrations can have frames around them as well as photographs should be set off by borders or backgrounds.

Put your experimental data into charts that you can post onto the board.

Avoid clutter and organize your board in a way that it tells a story from left to right. Keep the display neat.

**DO NOT WRITE ON THE DISPLAY BOARD ITSELF.**
